

Black Rock Event Center

Ice Rink and Event Center | 101,000 SF | Park City, UT | 2023 | Junior ME and Head Draftsman

PROJECT OVERVIEW

Ice Rink/event center for 3,000 guests. Featuring locker rooms, 2 commercial kitchens, executive space and team weight rooms

SCOPE OF SERVICES

- Load Calculations
- HVAC duct layout
- Kitchen equipment design
- Construction Admin

KEY CHALLENGE

We were hired after the previous engineering firm was fired. We were asked to get a DD set in 2 weeks for the entire space. Being late to the design there were many constraints that had to be worked around that were out of our control.

OUTCOME

After many owner initiated change orders, change of GC and other complications the project was able to be completed with quick responses to RFI's and in person site visits.
