

Brite Family Dental

Dentist Office | 5,000 SF | American Fork, UT | 2022 | Mechanical Engineer

PROJECT OVERVIEW

Dental office with RTU conditioning. 20+ Dental chairs including 2 dental surgery rooms.

SCOPE OF SERVICES

- Load Calculations
- HVAC System Design
- Plumbing Design
- Dental Plumbing Design
- Construction Admin

KEY CHALLENGE

There were constraints on where the dental equipment could be located and how to best run dental plumbing to each chair.

OUTCOME

Coordination was ensured before the slab was poured to ensure that the conduits were installed to each chair. The dental compressor, vacuum etc were located in the basement with dedicated make up air.
