

Dragon Steel Warehouse

Warehouse Office TI | 40,000 SF | Pleasant Grove, UT | 2023 | Mechanical Engineer

PROJECT OVERVIEW

Warehouse with Office
Space conditioned with
furnaces. HVLS fans located
in the warehouse space.

SCOPE OF SERVICES

- Load Calculations
- HVAC System Design
- Plumbing Design
- Construction Admin

KEY CHALLENGE

The client wanted us to design
a system that would cost as
little as possible while still
adhereing to code.

OUTCOME

A furnace system was
installed for the office space
while HVLS fans were used in
the warehouse space to
increase comfort while
reducing costs.
