

Farmington Flex Warehouse

Tilt Up Warehouse | 500,000 SF | Farmington, UT | 2023 | Mechanical Engineer

PROJECT OVERVIEW

4 tilt up warehouses with freeze protection conditioning and planned with future buildouts in mind

SCOPE OF SERVICES

- Load Calculations
- HVAC System Design
- Plumbing Design
- Construction Admin

KEY CHALLENGE

With such large, long warehouses the invert for the plumbing lines could become too deep to be able to connect to the city lines.

OUTCOME

The city sanitary sewer connection was coordinated with civil and the sewer line was upsized with minimal slope to ensure the depth would be met. The warehouses were build without incident.
