

MAKE THE JUMP T.I.

TI Buildout | 3,000 SF | Bluffdale, UT | 2022 | Mechanical Engineer

PROJECT OVERVIEW

TI buildout for Jump, using RTU's. featuring 2 unique jump bays, office space and a large IT closet.

SCOPE OF SERVICES

- Load Calculations
- HVAC System Design
- Plumbing Design
- Construction Admin

KEY CHALLENGE

The jump bays required a large amount of additional equipment limiting clearance and increasing load on mechanical

OUTCOME

With successful construction administration we were about to coordinate proper placement of ductwork for the jump bays that allowed for their clearances to be met while conditioning the space.
